

SMART Learning Suite software

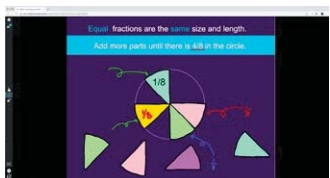

Transform static content into interactive experiences with the world's best lesson delivery, assessment, collaborative workspace and game-based learning software suite.

One ultimate education suite

Desktop experience

Available for Windows® or Mac®, SMART Notebook® comes with lesson creation tools, subject-specific features and endless ways to wow students. Time-saving templates are easy to customize for all grades and subjects.

Online experience

SMART Learning Suite (SLS) Online lets teachers add interactive game-based and collaborative activities to a variety of file types, and send lessons to student devices so they can complete individual handouts or work together in shared workspaces.

Powerful, easy-to-use tools for teachers

Lesson creation and delivery

- Quickly and easily create interactive lessons from **PDF and PowerPoint®** files, and **Google Slides, Docs and Sheets**
- Send lessons to a SMART Board® with iQ and **share lessons to student devices** or with other teachers
- Seamlessly transition between **teacher-paced and student-paced** anytime during lesson delivery and control lessons from a device

Game-based activities

- Use compelling graphics, animations and sounds to **keep students engaged** at a SMART Board or on their devices
- Add a theme to an existing question set, or make a **new game in under 5 minutes** using the activity creation wizard
- Choose from **many activity options**: multiple choice races, sorting exercises, fill in the blanks and many more

Formative assessments

- Easily guide instruction based on **real-time insights** into student comprehension
- Create a formative assessment in a few minutes and have students **answer questions on any device**
- Get **instant reports** on student understanding without breaking lesson flow

Collaborative workspaces

- In SLS Online, **instantly convert** any lesson page into a collaborative workspace
- Students co-create **inside or outside of class** by simultaneously adding content to the workspace from their devices
- Facilitate **whole-class or small-group** collaboration by guiding student contributions at a SMART Board or from a device

Join the 25 million teachers and learners using SMART Learning Suite around the world

One simple subscription model. Millions of enriching experiences.

SMART Learning Suite is available through a simple subscription model that is tailored to you, so you have only one cost to budget for. The cost drops based on the number of licenses you purchase and the length of your plan.

A subscription includes:

- Both the desktop and online experience
- Access the suite anytime, anywhere – even at home
- Log in using a school Google or Microsoft® account
- Ability to send lessons and activities to student devices
- Student access from any web-enabled computer, tablet or phone

Calculate how much you'll save at smarttech.com/calculator

SMART Learning Suite
works with the platforms your
teachers already use and your
schools have invested in.

Use SMART software on purpose-built technology

SMART Board interactive displays are designed to connect students, lesson content and devices into unified learning experiences. They encourage students to contribute, either up at the display or from their phones, tablets and laptops.

Untether the teacher

iQ embedded computing lets teachers deliver SMART Notebook lessons through the SMART Notebook Player app either at the display or from a mobile device.

Collaboration hubs

Simultaneous Tool Differentiation frees multiple students to write, erase and move notes in SMART Learning Suite at the same time – so students can easily work together at the board.

A 1-year subscription to SMART Learning Suite is included with the purchase of any SMART Board

Get the most out of your SMART solution

Your purchase is just the beginning. Our implementation and technical support services, professional development (PD) training and community resources help educators learn to use their SMART solutions and improve student learning outcomes.

Professional Development

SMART provides complimentary PD plans, and online videos, courses and webinars that cover both functional and pedagogical topics.

Education Consulting

SMART has a team of former educators dedicated to supporting implementation, as well as publications and research demonstrating improved outcomes.

Community Resources

SMART Ed2Ed webinars provide tips and tricks and the SMART Exchange® online lesson repository has over 100,000 pieces of content.
